

Kyriba for Midsize Companies

Kyriba for Midsize Companies is a scalable solution for companies looking to eliminate their manual and errorprone spreadsheet-based cash management program and replace it with an automated, easy-to-use system.

With a cost-controlled approach and easy go live, Kyriba for Midsize Companies' cash and liquidity management capabilities can be up and running quickly, giving more time back to your team for value-add initiatives.

Kyriba's cash and liquidity management benefits organizations by allowing treasury departments to spend more time on value-add tasks, and supporting strategic decision making, rather than spending countless hours on less valuable activities.

Optimize Cash Position in Midsized Businesses

Answering fundamental questions about the organization's cash position, such as location, currency and liquidity position, can be a seemingly monumental task. It can require multiple employees to spend many hours using disparate tools and data sources. Having clarity and visibility into the organization's cash is a fundamental and vital requirement for any treasury department to support critical financial decisions and strategic business objectives.

Kyriba cash management module provides that visibility. Kyriba is recognized as the [market-leading global cash management solution](#), providing comprehensive capabilities in an intuitive and easy-to-use solution. Kyriba delivers timely and accurate [global cash visibility](#), across all banks, in all regions, and enables treasury teams to create accurate forecasts that deliver confidence throughout the organization.

Kyriba is recognized as the market-leading global cash management solution, providing comprehensive capabilities in an intuitive and easy-to-use solution.

Cash Management and Cash Forecasting Overview

For midsize companies, Kyriba's cash management and cash forecasting capabilities automate the preparation and reconciliation of the organization's daily cash position before the business day begins. Starting with the cash position worksheet, Kyriba's clients have a powerful and intuitive way to visualize cash positions through the combination of bank balances and transactions with expected cash flows. This ensures that clients always have up-to-date and realtime insights into positions across banks,

accounts, entities and regions. With an accurate and up-to-date cash position as the starting point, clients can use Kyriba's [cash forecasting](#) capabilities to build and analyze global cash forecasts by day, week, month or year by leveraging multiple sources of data, including repetitive items, import of ERP data, integration with other Kyriba modules, and extrapolation of historical data. The use of powerful cash forecasting analytics allows organizations to compare forecasts to actuals for any horizon to help improve cash forecasting accuracy.

Cash Management: Key Capabilities

Dynamic Reporting

Personalized cash position worksheets and period-based views provide the summary of balances and their evolution over time, while the daily view provides a categorized summary of the actual and forecasted cash movements of the day.

Global Positioning

Cash position can be viewed by region and/or by currency. Foreign currencies can be viewed based upon exchange rates or positions can be viewed in their native currency.

Liquidity

Analyze total liquidity by incorporating desired investment and credit data from the Debt and Investment modules. A dedicated liquidity report aggregates and sums data.

Multi-Entity

View position by the individual entity or analyze corporate-wide cash position configurable to each client's requirements. Full drill-down allows viewing the summary as well as supporting detail.

Seamless Integration

The cash position is updated continuously in real-time, so any changes made to a forecast, including from other Kyriba modules, will be automatically available on a client's worksheet(s).

Target Balances

Cash pooling allows target balances to be set in a hierarchical manner, ensuring that recommended funding and drawdowns are predicted, and can automatically occur in combination with the [Kyriba Payments solution](#).

Cash Forecasting: Key Capabilities

Import from ERP

A/P and A/R detailed or summary level data, and other internal systems.

Forecast Reconciliation

Access powerful analytics, comparison of forecasts to actual bank transactions based on a combination of customizable criteria including account, amount, date, and reference. One-to-one, one-to-many, and many-to-many matches are available. Compare estimated and confirmed forecasts to actuals, and analyze variances for any user-definable period. Users can also support working capital management by reconciling open receivables against cash receipts to report on A/R variances, calculate days of sales outstanding, and improve cash predictability.

Easy Entry

Rely on straightforward input of forecast data using standard entry forms.

Seamless Integration

Kyriba's entire cash and liquidity management suite automatically updates the cash forecast so cash flows are available in real-time.

Viewing the Forecast

Personalize forecast views based upon period of time series, line items, business units, userdefined groupings, and additional information, such as borrowing or investing activity.

Cash Accounting

Kyriba cash accounting eliminates the time-consuming effort and error-prone manual process of posting to the GL by automating the GL entry process, generating dual and multi-sided entries from banks and internal cash transactions. Automated rules scan transaction characteristics in order to apply the appropriate GL accounts, creating a set of entries that are electronically integrated with the GL, on a scheduled and fully automatic basis. Kyriba cash accounting benefits all types of organizations, whether global, complex, centralized or decentralized, by supporting multicurrency and multiple charts of accounts.

Payment Control

Kyriba can be harnessed to seamlessly integrate with your banking partners and give you ultimate control over your payment processes. Kyriba provides you with a single point of entry to generate and approve payments, and the Kyriba connectivity network helps format and transmit your payments to the bank. In addition to supporting the payment tasks carried

out by your treasury team, our payment solutions provide you the ability to integrate and route payments to your banks from internal systems, such as accounts payable, taking the onus off of internal IT resources to control. Leveraging Kyriba's connectivity allows organizations to become bank agnostic and quickly onboard expansion of their banking footprint without involvement of internal IT resources.
