

# Value Added Services Packages

BUDGET ONCE. PAY ONCE. USE ANYTIME.

**Kyriba now provides a flexible and seamless way to purchase professional service hours in bundled packages, providing cost savings and efficiency to accelerate time-to-value of consulting engagements.**

## Ideal For:

- Organizations with ambitious treasury digitalization roadmaps, or foresee organizational growth
- Treasury and Finance Departments with a strict, predefined budget
- Resource-constrained organizations
- Companies who have high or immediate demands for Professional Service hours where time-to-delivery is crucial

**VAS Packages are more flexible and can be used towards projects such as:**

- Implementation of new modules or new bank connections
- New payment connections or additional payment scenarios
- Customized 1:1 training for existing or new users
- Customized report creation
- Complex configuration changes in existing set-up or live modules
- Process reviews and workflow optimization
- Much more!

VAS Packages are an alternative path to Change Orders, giving customers **greater flexibility** in budgeting and resource allocations, and will **accelerate time-to-value** of consulting engagements. They **DO NOT** replace Kyriba Support.

## Request to Resource Assignment in Just 72 Hours

Typical Change Orders can take 3-4 weeks to flow through legal and finance teams before a Professional Services resource is assigned, and they often expire before work is completed. VAS Packages eliminate the need for Change Orders and provide near-immediate engagement without billing or contractual hurdles.

**The More You Purchase, the Lower the Cost**

**Three Package Options**

**20Hrs**

**40Hrs**

**100Hrs**

Speak to your Account Manager for rates. 12 Months to initiate service request; 15 months to complete service delivery. No rollover of hours. Hours consumed in 30 minute increments. No customization of packages available & no discounting of rates within packages. Fixed Fee with 100% due upon signature.
